Re: TechSoup online courses available

TechSoup, founded in 1987, is a nonprofit international network of non-governmental organizations (NGOs) that provides technical support and technological tools to other nonprofits. Aside from assisting organizations with purchasing hardware and software, TechSoup also offers various online-based training at both no- and low-cost rates.

A brand new year might very well be a good time to learn something new. Check out the latest online course offerings that are available through TechSoup at the following link:

<https://techsoup.course.tc/catalog>

You will need to register with TechSoup.
